Approved Distribution Courses - 2019-20
Area II - Formal Studies
updated 8/21/19

Be sure to read these important notes:

Prerequisites. Many approved distribution courses are advanced courses with one or more prerequisite. Prerequisites are listed in the Undergraduate Catalog and in course descriptions available through the F website. Make sure you have the prerequisites for a course before you decide to enroll.

Interdisciplinary courses. Some interdisciplinary courses are approved for inclusion in more than one area. *These courses are listed in bold and italics below*, and all relevant areas are indicated in the "Area" column. If you take such a course, you can choose in which eligible area to count it.

When courses are offered. This list includes all courses approved for distribution credit for the indicated year. The Registrar's Office maintains lists of distribution courses to be offered each quarter, as well as Yearly Course Planners showing each department's planned course offerings for the year. **Some approved courses may not be offered.**
